Samsung CLX-9252NA/9352NA Colour MFP

Deliver your work faster with these powerful department-class MFPs

HIGHLIGHTS:

- Fast printing, copying, and scanning due to its dual core processor
- Communicate better with bright and vivid colours, made possible by Samsung's polymerized toner
- Maximize your productivity with the 8.9" colour touch screen panel
- Integrate into your existing workflows with the eXtensible Open Architecture (XOA) platform
- Keep all of your work data safe with standard security features

In today's business environment, you expect your MFP to be able to handle your organization's growth. The new Samsung CLX-9252NA and CLX-9352NA provide high-output workgroups with optimal speed for printing, copying, scanning, and faxing without sacrificing quality. While receiving professional-grade printouts, you will also enjoy cost savings from features including the All-in-One Board, high monthly duty cycles, and Eco Mode. These multifunction printers are more than a device; they are part of your team.

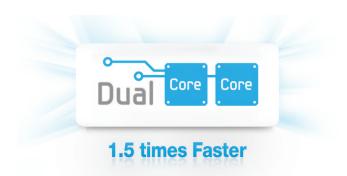

True Colour at the Speed of Light

In today's fast-paced environment, you expect your MFP to achieve maximum uptime. The new Samsung MultiXpress CLX-9252NA and CLX-9352NA provide high-output workgroups optimal speed for printing, copying, scanning, and faxing without sacrificing quality. Samsung Rendering Engine for Clean Page (ReCP) technology produces professional-grade printouts, and the polymerized toner provides a vivid and glossy finish with smaller and more uniform particles.

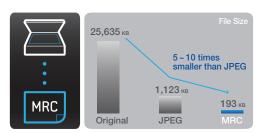

Improve performance with twice the power

The MultiXpress CLX-9252NA and CLX-9352NA enhance office productivity with faster printing and scanning capabilities, powered by a fully integrated Samsung 1 GHz dual core processor. Large print and copy jobs are easier to manage, and scanning throughput is increased. The dual core processor performs printing tasks faster than a conventional processor, enabling employees to focus on core work activities.

Send scanned files quicker with high compression

The Samsung Mixed Raster Content (MRC) technology compresses scanned files with little reduction in quality. The compressed files save MFP storage space, helping users create and send scanned documents with greater ease and speed.

- * MRC (Mixed Raster Content): extracted text and image for PDF format scan.
- * Evaluation from internal test lab.

Enjoy quality printouts

Samsung's unique ReCP (Rendering Engine for Clean Page) technology and up to $600 \times 600 \times 4$ -bit dpi improve the overall quality and vibrancy of your colour printing, ensuring every printout looks perfect. It automatically sharpens the focus of both graphics and text, while solid objects are overlapped to eliminate white gaps.

Prevent document fading with polymerized toner

Samsung polymerized toner produces smaller and more uniform particles than conventional toners. Printouts have crisper lines and intense colours, and pages curl less often. Additionally, the high wax content improves the image gloss and durability, which helps prevent the document from fading.

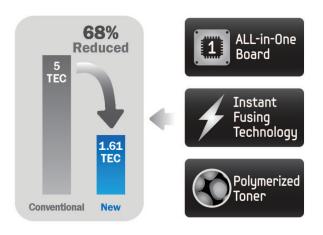

Reduce Energy Consumption and Costs with Higher Efficiency and Reliability

Companies expect value from every aspect of the business, including their colour printers and copiers. The MultiXpress CLX-9252NA and CLX-9352NA have low failure rates, which means fewer maintenance costs, hence lower operating costs. Additional cost-saving features include the All-in-One Board, high monthly duty cycles, and Eco Mode.

Low power consumption

The combined boards and chips that make up the All-in-One Board help reduce the number of complex parts, decreasing the failure rate. The All-in-One Board assists in controlling overall energy consumption by lowering power requirements. When compared to a conventional board during an internal test, the All-in-One Board helped reduce Typical Electricity Consumption (TEC) by up to 44.2 percent.

Samsung Instant Fusing System (IFS) technology also helps increase printing and copying speeds. In addition, IFS reduces energy use, which further aids in controlling operating costs. The combination of the All-in-One Board, IFS, and polymerized toner helps companies decrease expenditures.

A business asset that helps ensure low-cost, hassle-free ownership

The MultiXpress CLX-9252NA and CLX-9352NA help businesses thrive in a fast-paced, economically challenged world with features that promote cost savings.

Less downtime with high monthly duty cycles

The MultiXpress CLX-9252NA and CLX-9352NA have high monthly duty output cycles of 120,000 pages (CLX-9252NA) and 150,000 pages (CLX-9352NA). Due to its high monthly output, the low mechanical failures and decreased downtime can help businesses save both time and costs. The MFPs also have a double-chassis structure that is designed for heavy-duty usage.

Reduced downtime for maintenance

Decreased maintenance and installation times help businesses meet deadlines within budget. Toner replacement for the MultiXpress CLX-9252NA and CLX-9352NA printers is designed for ease of use. In addition, users can correct paper jams without the need for a maintenance call. Fewer steps are required to replace high-frequency service items (HFSIs), such as fusers, rollers, and image transfer units (ITUs). Fewer maintenance steps means the device is more readily available when users need it.

Easy Operation of Various Functionality at Your Fingertips

Simplified savings with the touch of a button

Businesses can lower operating expenses with greater ease using Eco Mode, an energy-saving feature that helps companies reduce paper and power costs. By simply pressing the Eco button on the MFP, users can print more onto every page, with options for 2-up, 4-up, and duplex printing.

Additionally, users can select the option to automatically skip blank pages, which helps save on toner, further reducing supply expenses. Based on an internal Samsung test, Samsung MFPs with Eco Mode outperformed an MFP without Eco Mode.

Easy Eco Driver provides users a preview of a document before printing, which helps reduce wasted printouts. While previewing the document, users can modify its format by removing text and images. The user can also adjust the layout (for example, from 1-up to 2-up printing) without changing the original document layout.

Designed for ease of use and expandability

With convenient features, such as the large full-colour LCD touch panel, wide media acceptance, and fast UI response rate of 500 milliseconds, work groups can save time and focus on their work instead of wasting hours on the equipment they use to produce it.

LCD control panel that is one of the largest in its MFP class

The colour LCD control panel on the MultiXpress CLX-9252NA and CLX-9352NA MFPs is 8.9 inches and considered one of the largest MFPs in its multifunction printer class. The control panel tilts for convenient viewing of the current job status, following prompts during an operation and setting up menus. Also, LED indicators, such as low paper alerts or a ready-for-use indicator, help users more quickly determine the device status.

Mobile printing

Mobile workers can print, scan, and transfer files wirelessly from most mobile devices. Workers can realize increased productivity because they can print without having to install printer drivers to use robust print features.

Samsung Eco-Driver earned the 2012 "Outstanding Achievement" Award from Buyers Lab, Inc.

Produce Polished Documents of Various Formats and Media Types

Configured to grow with a business

The MultiXpress CLX-9252NA and CLX-9352NA are designed to expand with a growing business. The MFPs can be configured based on the needs of the business with a wide range of functions, including the following:

- Working table
- 1.250-sheet Standard Finisher
- 3.250-sheet Booklet Finisher
- Stand
- Dual Cassette Feeder
- High Capacity Feeder

Extensive paper handling and finishing capabilities

Workgroup members can finish various types of documents with the optional 1,250 / 3,250 finisher (hole punch and booklet), stapling, and folding features. Users can select from the optional dual cassette feeder (DCF) and high capacity feeder (HCF).

Wide media acceptance, including banners

The MultiXpress CLX-9252NA and CLX-9352NA MFPs can accept a wide array of media types. The A3-capable MFPs accept the widest copy paper weight in the class. A multi-purpose tray supports envelopes of various widths, heavy stock paper, and other special media. Additionally, the MFPs can support banners up to 1,200 mm x 320 mm (47.2" x 12.6").

Enhance Your Office Data Security at No Extra Cost

Control the device through security and Smart Samsung solutions

Data security is a major concern of businesses today. The Samsung Security Framework is standard on the MultiXpress CLX-9252NA and CLX-9352NA. It increases network protection and helps prevent unauthorized access to confidential information.

XOA (Open Architecture Platform)

Connect the MultiXpress CLX-9252NA and CLX-9352NA MFP to a company's applications through XOA. Based on open standards, XOA enables print solution vendors to create embedded applications that enhance the use of the device's capabilities to help improve business processes. XOA provides the following:

- Intelligent integration across a wide range of services
- Easier integration and less downtime during installation
- A flexible solution for continuous productivity
- Optimized extensibility and customization

Smart Samsung solution support

Samsung offers various solutions to help increase business efficiency, such as device management, secure printing, document workflow, barcode document management, and mobile printing. The Smart Samsung suite of solutions is designed to help meet modern office requirements.

Authenticated user	AuthenticationAuthorizationAccounting	
Protected network	Secure Socket Layer (SSL)/ Transport layer Security (TLS) Simple Network Management Protocol (SNMP) v3 Internet Protocol Security IPSec (Internet Protocol [IP] v4, IPv6) 802.1x (with Extensible Authentication Protocol [EAP]) Protocol/port management IP/Macintosh filtering	
Secure document	Secure print Secure scan Secure fax Document tagging (watermark, stamps)	
Secure data	Encryption Hard disk drive image overwrite	
Secure management	System logs System back up Email notification	

SyncThru™ Device Management Solution

SyncThru[™] Admin remotely discovers, manages, diagnoses, and reports all devices within the network to achieve increased efficiency and productivity of the organization.

SecuThru™ Secure Printing Solution

SecuThru™ Lite ensures document security and help reduce printed waste. The key features are card authentication, secure release printing and job accounting.

SmarThru™ Workflow Document Distribution Solution

SmarThru™ Workflow streamlines document workflows from capturing paper documents, as well as electronic documents, to distributing them to predefined destinations.

Barcode™ Document Management Solution

Barcode™ is used to manage assets and stock items, track items through distribution channels or simply improve the management of documents within the organization.

Expand Functionality Easily and Affordably

Manage workflows with smart solutions

Use Samsung solutions with the MultiXpress CLX-9252NA and CLX-9352NA to create an MFP that helps efficiently manage business workflows.

Secure printing

SecuThru™ Lite manages all printing jobs from PCs and mobile devices. Documents are not released without user authentication.

Secure document workflow

Only authenticated users can access to the pre-defined scan workflow by SyncThru $^{\text{TM}}$ Workflow with icon-based intuitive user interface.

Single sign on (SSO)

A user logs in once and gains access to all Samsung solutions.

Usage monitoring by user and by device

Information technology (IT) administrators can manage and monitor users' print, copy, and scan jobs with the SyncThru™ Admin interface.

Customizable for Your Business

The Samsung MultiXpress CLX-9252NA and CLX-9352NA multifunction printers are more than a device; they are part of the team.

Set up the MultiXpress CLX-9252NA and CLX-9352NA to expand with changing needs

The Samsung MultiXpress CLX-9252NA and CLX-9352NA MFPs can be configured to grow with a business. Organizations can begin with the basic production configuration, and then add options to increase the design, productivity, and integration of the device as needed. A wide range of supplies are also available. The following table shows the available configuration options for the MultiXpress CLX-9252NA and CLX-9352NA MFPs.

	Basic Configuration	Advanced Configuration	Full-Featured Configuration
System Features	Main Unit + Stand	Main Unit + 1,250 Standard Finisher + Dual Cassette Feeder	Main Unit + 3,250 Booklet Finisher + High Capacity Feeder
Max Input Paper Capacity	520 (Cassette) x 2 +100 (Multi-purpose Tray) =1,140 sheets	520 (Cassette) x 4 +100 (Multi-purpose Tray) = 2,180 sheets	520 (Cassette) x 2 + 2,000 (HCF) + 100 (Multi-purpose Tray) = 3,140 sheets
Max Output Paper Capacity	500 (Center Tray) + 150 (Right Tray) = 650	1,250 sheets + 150 (Right Tray) = 1,400	3,250 sheets + 150 (Right Tray) = 3,400
Perfect for:	Mid-Small Work Group (3-10 persons)	Department Mid-Small Work Group (6-15 persons)	Copy/Print Center Department Mid-Small Work Group (Over 20 persons)
